Defense Actions

IMMEDIATE ACTIONS

- Isolate host 10[.]12[.]4[.]101 from network
- Block outbound traffic to 192[.]254[.]225[.]136
- Block outbound FTP Port 21 at the firewall
- Reset all credentials for gary.strickman
- Invalidate active Chrome and Edge sessions
- Preserve full PCAP as forensic evidence

LONG-TERM CONTROLS

- Block all outbound FTP traffic permanently
- Deploy EDR solution across all endpoints
- Implement DNS filtering for new domains
- Enable MFA on all corporate accounts
- Deploy email attachment sandboxing
- Enforce DMARC / DKIM / SPF at gateway
- Conduct regular phishing awareness training
